AI NATION

REDEFINING NATIONAL PRIORITIES IN THE NEW ERA OF ARTIFICIAL INTELLIGENCE

Ian Khan explores how nation states can elevate their leadership in AI, not merely through domestic advancement but by forging strategic international partnerships. He illuminates how cross-border collaboration on AI ethics, research, and workforce development can create a global ecosystem of shared innovation and prosperity.

Learn about leveraging AI advancements to solve global challenges (climate change, healthcare access, etc.). Get ahead on building ethical guidelines and standards that unify, rather than divide, global partners. Get insights on strengthening diplomatic and economic ties through joint R&D, talent exchange, and co-investments.

- How can Ai define economic growth
- What are the growth opportunities for businesses
- How does AI augment and support business
- Steps business must take to capitalise on tech driven growth
- What are the top areas of focus for AI led growth

MADE IN USA

HOW AI AND AUTOMATION CAN SPARK A GLOBAL MANUFACTURING RENAISSANCE

Ian Khan showcases how American manufacturing's revival, fueled by AI and advanced automation, can inspire a worldwide manufacturing renaissance. Instead of competing in isolation, firms can serve as knowledge hubs—sharing best practices, technology, and sustainability frameworks to address supply chain disruptions and bolster manufacturing ecosystems worldwide.

Focused on the role of AI in reshoring production and securing global supply chains, partnering with international suppliers and innovators to co-create next-gen manufacturing solutions and sustainable and responsible manufacturing practices that set industry-wide benchmarks.

- How does manufacturing contribute to the US economy
- What is the outlook on US manufacturing
- Outlook on new regional agreements
- Business opportunities in the continental US
- Technology & Innovation focused manufacturing

THE NEW AMERICAN DREAM

HOW TO USE AMERICA AS YOUR NEW LAUNCHPAD FOR INNOVATION

Ian Khan explores how american businesses can elevate their leadership in AI, not merely through domestic advancement but by forging strategic international partnerships. He illuminates how cross-border collaboration on AI ethics, research, and workforce development can create a global ecosystem of shared innovation and prosperity.

Learn about leveraging AI advancements to solve global challenges (climate change, healthcare access, etc.). Get ahead on building ethical guidelines and standards that unify, rather than divide, global partners. Get insights on strengthening diplomatic and economic ties through joint R&D, talent exchange, and co-investments.

- How can Ai define economic growth
- What are the growth opportunities for businesses
- How does AI augument and support business
- Steps business must take to capitalise on tech driven growth
- What are the top areas of focus for AI led growth

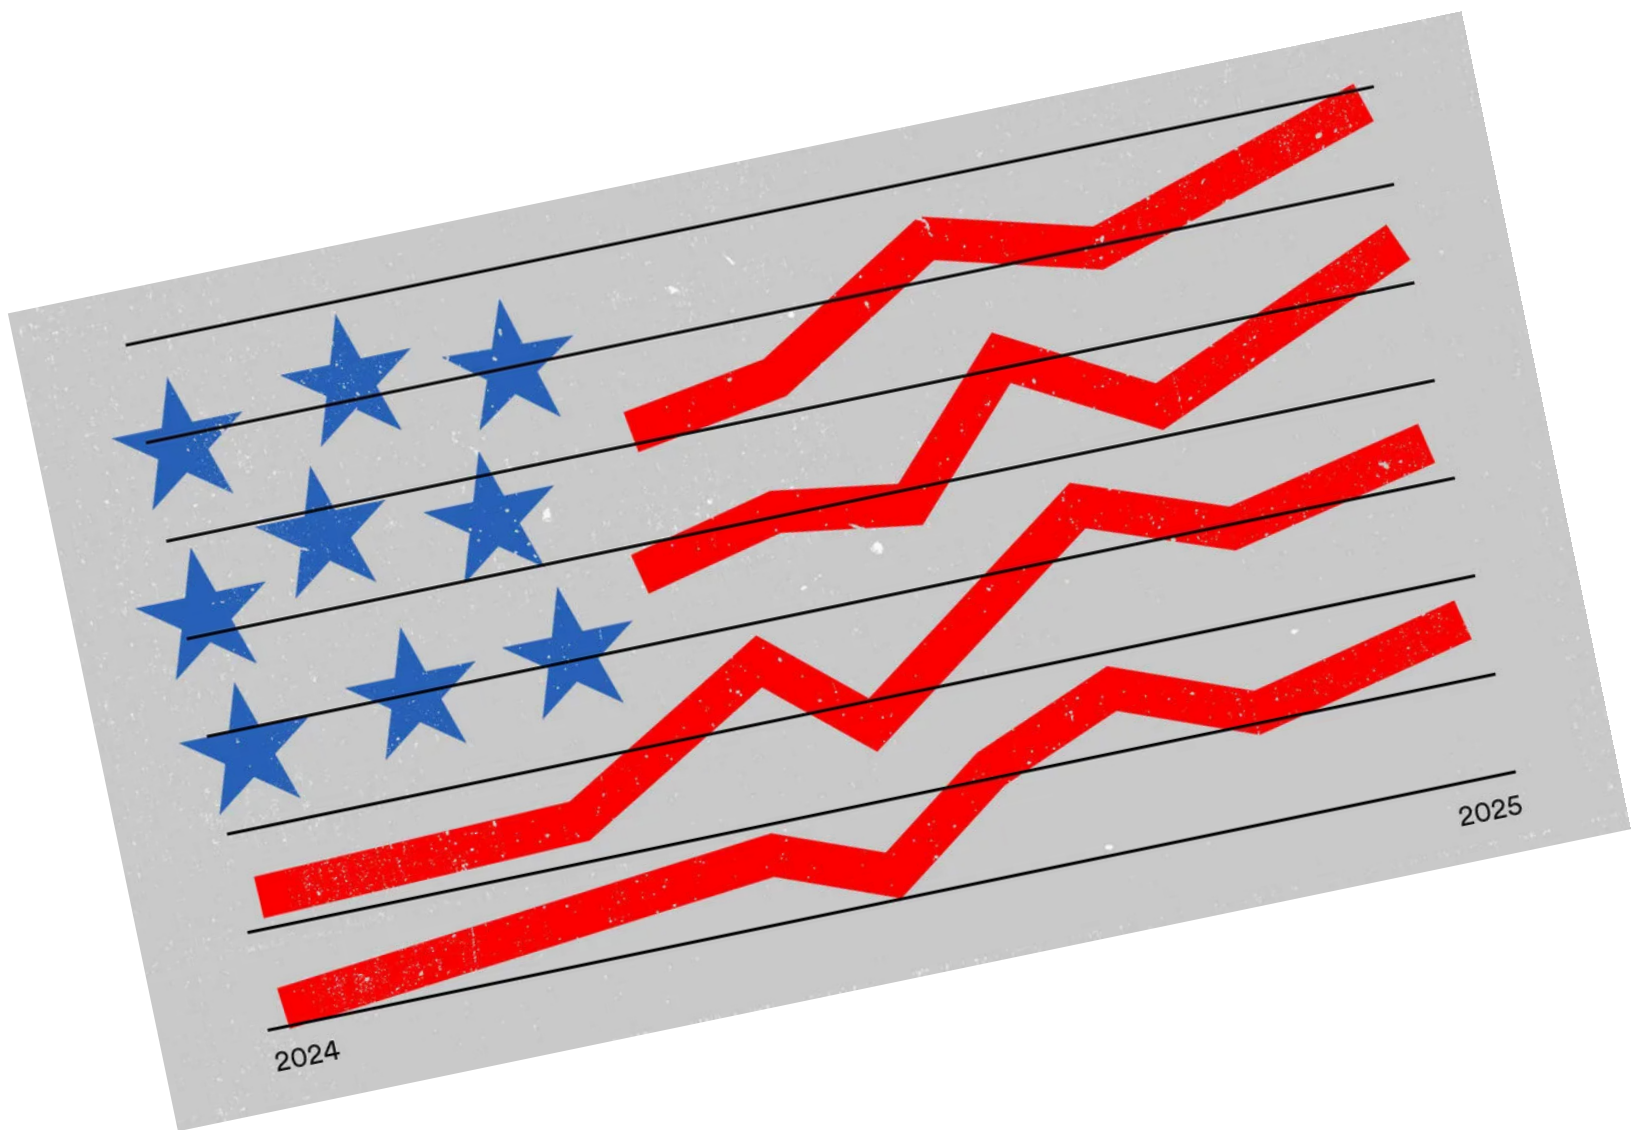

PURPOSE, PROFITS & AI

BUILDING A UNDISRUPTED FUTURE

Ian Khan demonstrates how businesses can unite profitability with a global sense of responsibility—especially when disruptive technologies like AI reshape the market. By partnering with international institutions and harnessing shared resources, businesses can not only thrive financially but also help tackle humanitarian and environmental issues worldwide.

Aligning corporate missions with UN Sustainable Development Goals. Encouraging public-private alliances that pool tech, talent, and capital for social impact. Strategies for continuous “Undisrupted” innovation that uplifts communities globally.

- What to focus on when building a future ready organization
- How to lead in the era of AI
- Immediate steps to take to win quickly
- The long term business strategy unveiled
- Principle of leadership

THE AI-MERICA PLAYBOOK!

Ian Khan highlights key focus areas of the current US administration on technology, economic growth and industries including manufacturing, tourism, energy, healthcare and innovation. Uncovering a step by step approach on how these investments and decisions will impact business in America, Khan looks at a 10 year timeline and what businesses must do to take advantage of the current growth cycles and tapping into incentives, and ideas that can help create purpose led profits.

- Identifying megatrends and global alliances to accelerate innovation.
- Building robust partnerships with emerging markets for mutual economic uplift.
- Ensuring inclusive, future-ready ecosystems that drive long-term stability and growth worldwide.

WHY IAN

Ian Khan, "The Futurist" is a National Bestselling author on USA Today, a multifaceted leadership expert, storyteller and creative mind.

Ian created the Future Readiness Score™, a KPI, to scientifically measure how well an organization is ready to grow through unanticipated change. His work has been featured on CNN, BBC, Bloomberg, Fast Company and other global media.

Ian's latest book is "Undisrupted", a USA Today National Bestseller and Top Seller in Business Management, Government leadership and Entrepreneurship on Amazon.

Ian has also produced a series of compelling technology documentaries available on PrimeVideo, Emirates Airlines, Tubi and other platforms. His new truth seeking docu series "The Futurist" is an investigative and storytelling series to help understand the impact of emerging technologies on our world. As a media host Ian speaks to business leaders, celebrities, politicians and change makers.

As a keynote he brings high energy to every event and leaves audiences empowered and ready to lead.

Book Ian as your keynote for an unforgettable experience,
